Wedding Photography Options 2020

We want to offer you a simple, easy way of booking your wedding photography regardless of budget, so all our wedding coverage options include digital copies of print-ready, high resolution images taken at your wedding, for you to use however you wish. We understand that not all couples want a traditional wedding album, but would rather have the freedom to produce their own photographic memories from their big day.

The images are presented ready for you to share with friends and family. Of course we also offer a wide range of bespoke albums, parents' album packages, canvases and framed prints for couples that desire a little more from their wedding photography. You can add a wedding album to any of our packages, see below for details. Each of our coverage options also includes a password-protected web viewing gallery, making your images easy to view and share with friends and family.
